

2014-2016

ACTION PLAN

Frontenac Detachment

OUR VISION

Safe Communities... A Secure Ontario

OUR MISSION

Committed to public safety, delivering proactive and innovative policing in partnership with our communities.

OUR VALUES

Professionalism, Accountability, Diversity, Respect, Excellence and Leadership

Ontario's Mobilization & Engagement Model of Community Policing

Enforcement & Crime Suppression

Community Mobilization

Enforcement is an integral component of Community Policing where there are threats to community safety and security

Crime Prevention through Social Development: addresses the precursors to crime, like: poverty, sub-standard housing, addictions and negative parenting.

In the beginning police *lead* community members into safety and community-building initiatives - always looking for community members who can take over the *leadership* role.

Community Mobilization & Crime Prevention

COMMUNITY MOBILIZATION
Actions and initiatives that police officers take to motivate and support neighbours to deal more effectively with the root causes of crime and insecurity in their neighbourhoods.

COMMUNITY
Community includes every person or organization that is affected by any real or anticipated threat to peace, safety, security and well-being.

Community Engagement & Liaison

Community Engagement

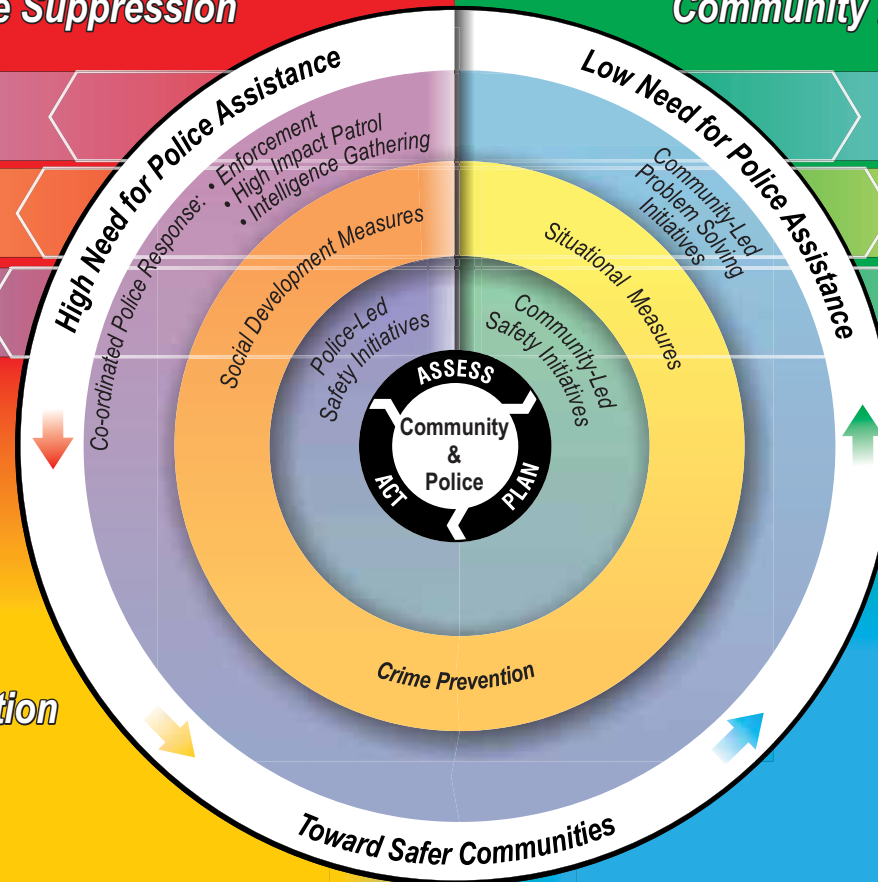

Communities which have the greatest *capacity* to resolve issues that threaten their safety, security and well-being, require the least police assistance.

Situational Crime Prevention Measures: focus on specific forms of crime - like double-cylinder, dual bolt locks that prevent some forms of break and enter.

Police may have to find the natural community leaders and *engage* them to help community members increase their own safety, security and well-being.

Community Safety & Consultation

COMMUNITY ENGAGEMENT
Police actions that encourage participation of neighbours and citizens in increasing their own and others safety, security and well-being.

Message from the Detachment Commander

As your new Detachment Commander, I am pleased to present Frontenac detachment's very first Detachment Action Plan. This three-year plan replaces the former Detachment Business Plan. Included in the Action Plan are provincial, regional and local priorities which allow the detachment to focus on concerns that reflect not only province-wide priorities such as the Big Four, but it also allows for dialed in and focused concerns locally.

For example, in the 2013 Frontenac Detachment Community Satisfaction Survey there was only a 74 percent satisfaction rate with Frontenac Ontario Provincial Police (OPP)'s efforts to prevent crimes against seniors. As a result, this Action Plan includes a focus on this local issue in conjunction with the Community Mobilization and Engagement Model premise. The anticipated results will be the OPP liaising with an engaged community of seniors working to help other seniors.

The rising costs of policing are still in the forefront of the public's mind. As a result, it is imperative the OPP remain open and transparent in how we do things. The Action Plan is part of that accountability and transparency. The new Action Plan sets realistic and achievable goals and there is now the opportunity to report on these results. Finally, the new Action Plan for 2014 – 2016 is flexible and dynamic. Over the next three years, there will be new challenges the OPP and the public will face. The new plan allows for priorities to be revisited and revised where required and results will be reported annually.

I look forward to my coming years with the members of the Frontenac detachment and residents of South Frontenac and I anticipate a strong working relationship with the Police Services Board, the Municipality and the public to achieve a safer and more secure Ontario.

Our Detachment

- Frontenac detachment is comprised of the Township of South Frontenac and includes a 40 km stretch of Hwy 401 as well as a portion of Hwy 15. Our portion of Hwy 401 is located within the geographical boundaries of the City of Kingston. As a result members of the detachment find themselves working in two separate areas. This provides a unique but attainable challenge of ensuring the proper coverage of all areas.
- South Frontenac Township is primarily a rural area covering over 970 square kilometres. There are several small villages and towns located throughout the township with the largest centre being Sydenham. The township borders the City of Kingston and as a result there is quick access to city amenities.
- The township's major sources of employment are agriculture, service industries, commercial operations and tourism.
- With the township being so close to the City of Kingston, many residents are employed within the city or surrounding area and commute to work. As a result, all of the townships major north/south arteries that lead into the City of Kingston, in particular Township Rd 38 and County Roads 9, 10 and 11 are heavily travelled in the morning and later afternoon.
- Seasonal recreational activities that affect policing include: summer cottagers, boating, ATV and snowmobile use, hunting and interior camping and hiking at Frontenac Provincial Park.
- The township has a year round population of approximately 18,000 residents. During the summer months this increases by as much as 10,000 people given the large number of lakes populated by many cottages.

Our Detachment

Community Satisfaction Survey

Year: 2013

The Community Satisfaction Survey (CSS) is a tool for gathering public opinion on policing issues, perceptions of crime and ratings of OPP service delivery. The surveys are prepared and coordinated through the Research, Planning and Analysis Unit of the OPP. A commercial research company, R.A. Malatest & Associates Ltd, was contracted to gather data for the CSS for East Region detachments by telephoning a representative sample of residents within each of the 16 East Region detachments and asking them a series of questions comprised of the three following types:

- Questions dealing with the respondents' perceptions of their community;
- Questions dealing with respondents' awareness of the OPP as part of the community; and
- Questions regarding respondents' satisfaction with OPP service delivery and law enforcement.

There were 380 surveys completed by individuals who reside in the Frontenac OPP Detachment area. Results of some of these submissions are included below. The next Community Satisfaction Survey for Frontenac detachment will be conducted in the fall of 2016.

1.	How safe do you feel in your community? A: 99.5% of respondents felt 'very safe' or 'safe' in their community
2.	How satisfied were you with the ease of contacting the OPP? (NOTE: This question was only asked of those who said they had contacted the OPP in the past year.) A: 93.6% were 'very satisfied' or 'satisfied' with the ease of contacting the OPP
3.	Overall, how satisfied are you with the quality of police service provided by the OPP? A: 95% of respondents were 'very satisfied' or 'satisfied' with the quality of police service provided by the OPP
4.	How satisfied are you with the OPP's ability to work with your community to solve problems? A: 93.8% of respondents were 'very satisfied' or 'satisfied' with the OPP's ability to work with communities to solve local problems
5.	How satisfied are you with the OPP's enforcement of aggressive driving laws? A: 83.2% of respondents were 'very satisfied' or 'satisfied' with the OPP's enforcement of aggressive driving laws

List of Priorities for 2014-2016

The OPP's action planning process ensures compliance with the Adequacy and Effectiveness of Police Services Regulation (Adequacy Standards) filed as O. Reg. 3/99 in 1999.

Through assessment, analysis and consultation, the following priorities were identified under three categories: crime, traffic and other policing. The priorities reflect provincial, regional and local issues. Subsequent local analysis and consultation will further identify the specific areas of focus for this detachment. Priorities will be addressed by effective management strategies combining engagement, education and enforcement. Operationalized within the construct of Ontario's Mobilization and Engagement Model of Community Policing these strategies will provide the foundation for sustainable community safety and reduced victimization.
